## AWISA Design

AWISA design is Australia's specialist interior design show. The show should be visited by anyone involved in the design, specification, manufacture or installation of domestic and commercial fit-outs. In particular it provides the opportunity for specifiers to connect with product suppliers.

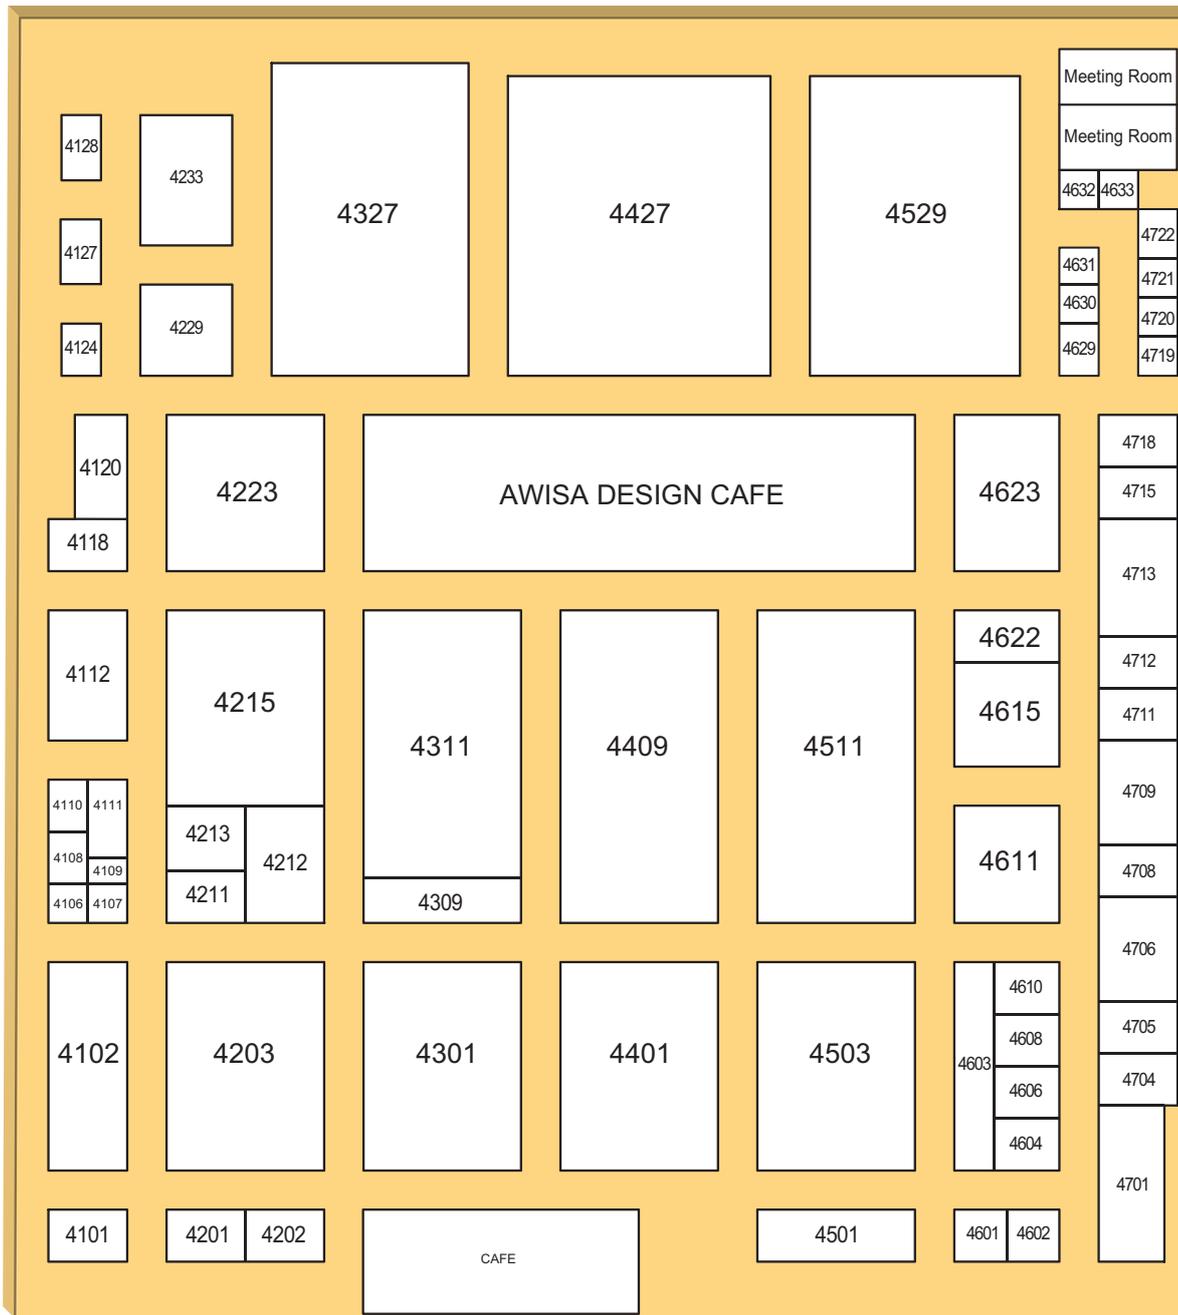

The most sophisticated and beautiful of products will be on display, aimed at a market that has a very high usage of the very best that the world has to offer.

AWISA design is a large event. It occupies over 9000 square metres on level 4 at ICC Sydney Exhibition Centre, Darling Harbour. The top ten exhibitors have display areas that on average exceed 300 square metres of space each.

Visitors will see a wide range of board and panel products, surface materials and finishes, cabinet and architectural hardware, furniture fittings, components and software for the design and manufacture of domestic and commercial interiors.

Products for kitchens, bathrooms, shop, office and hotel fit-outs, and other internal joinery, furniture and cabinetry.

## THE REVOLUTIONARY TITUS T-TYPE HINGE

The T-type hinge by Titus is the perfect solution for high-end kitchens, featuring soft close damping integrated into the hinge cup for a lifetime of consistent performance and consumer satisfaction. The simple toolless mounting system with innovative 3-Way 'snap-on' saves valuable time in cabinet assembly and a high tolerance ensures reliable closing even in case of accidental misalignment. Hinge-to-plate attachment creates stability and rigidity while also enabling a smooth performance with no rebound.

## FROM SITE MEASURE TO CAD IN A SINGLE STEP

The recent release of the 'Next Generation' Flexijet 3D has now advanced site measuring to the next level. This revolutionary laser measurement system measures and instantly creates a 3D CAD drawing with a precision of 0.9mm. Measure walls, curves, arches, doors, windows, bulkheads and any other feature encountered on a work site like never before. Awarded the German Federal Award for 'Excellence in Innovation' in 2011, Flexijet 3D is an indispensable tool for any site measuring project.

## DISTINCTIVE DECORATIVE DESIGNER PROFILES FOR HETTICH DRAWER SYSTEMS

Hettich's new designer profiles for ArciTech and InnoTech Atrira drawers provide a particularly effective way of individualising furniture. The decorative, self-adhesive designer profiles in attractive finishes create visual highlights with an individual touch: timeless stainless steel, chrome or aluminium looks. Oak and walnut pick up on the trend towards more natural authenticity. Easy to install, these profiles can also be added at a later date. The production process is in no way affected. Individual customer preferences can be met quickly and in a variety of ways.

Hettich Australia  
Stand 4311  
Phone 1800 687 789

## SENSYS HINGE IN OBSIDIAN BLACK – CONSPICUOUSLY INCONSPICUOUS

The Sensys hinge from Hettich combines perfect design with a feel of luxury. Sensys in obsidian black retreats into the background on dark materials, remaining conspicuously inconspicuous. The range provides a key to upgrading into the luxury segment and gives manufacturers new options for differentiating. Dark timbers, warm colours and exquisite surfaces are right on trend in the luxury segment. More and more cabinet fronts are featuring dark wood materials. This trend towards natural authenticity and harmony comes from a rediscovery of the home that promises a sense of well-being and security.

## THE COMPLETE HÄFELE - FURNITURE FITTINGS

Häfele is now proud to bring its valued partners its extensive collection of furniture fittings from around the world, gathered into the latest edition of The Complete Häfele - Furniture Fittings. In a follow-up to its earlier release of The Complete Häfele - Architectural Hardware, customers now have access to over 13,900 products available from Häfele Australia.

In addition to printed copies of the catalogues, the Häfele online experience has been expanded to keep up with the fast pace of every needs and requirements. Häfele knows that up to date information 24 hours a day is needed, that customers need live chat for immediate assistance, that they need to know the CAD details of that certain product and want to know what has been ordered in the past to speed up the ordering process. All this and more can be done with the ever-improving Häfele online platforms.

Häfele will continue to invest in product innovation and development to ensure customers are always up to date with world trends and the latest technology available.

To order a copy of the Furniture Fittings or Architectural Hardware catalogues visit [www.hafele.com.au](http://www.hafele.com.au) or find Häfele at stand 4511.

## KESSEBOHMER CLEVER STORAGE - ANTHRACITE

Häfele is proudly partnered with Kesseböhmer to bring the very latest products in their range directly from Germany. Kesseböhmer is the master of clever storage, bringing better pantry solutions such as the well-loved Tandem pantry.

Häfele and Kesseböhmer are now able to bring all their favourite Clever Storage products in the all-new Anthracite colour range to bring bolder colour and shade choices to homes and kitchens. Anthracite pairs perfectly with all colour palettes to bring a subtle but rich dark finish. Taking inspiration from natural materials, the Kesseböhmer Anthracite range will bring a more sophisticated finish to the kitchen than a traditional black finish.

Find out more about Kesseböhmer at stand 4615.

## MX DRAWER SYSTEMS

Häfele can now bring the MX drawer system to help make the most of space in a kitchen. MX drawers are engineered by Häfele to bring life to the kitchen through the smooth, elegant movements of the soft-close runners.

In addition to this there are several attractive side options from rails to glass inserts as well as many other high-end features to make drawers extraordinary. At stand 4511.

## LOOX/SMART HÄFELE

Homes should be as intuitive as their owners; now, with the Smart Häfele range they can be. Across the entire Smart range Häfele has engineered bathroom mirrors, sound and lighting systems to give control of the home through smart phones using the Häfele Connect app.

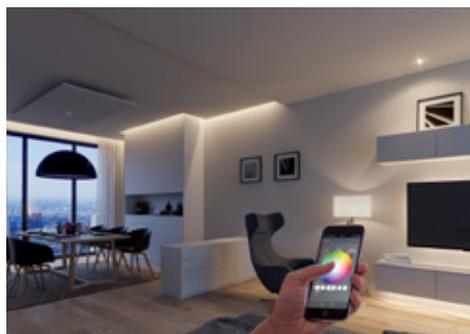

The Loox multi-dimensional bathroom mirror has been designed to integrate seamlessly into life with four key functions

at the touch of a button. With front and back lighting, an integrated sound system and a mirror demister all controlled via the phone, what more could a home owner want?

As the home owner moves into the living room the Häfele Connect mobile app automatically connects to the sound system in the cabinetry and lighting around the room. This allows the home owner to change and adjust the lighting as well as keep playing music from the phone throughout the home.

Through a simple interface and with the touch of a button, a home can come to life in the hands of the owner. Visit Häfele's Smart Room display for more.

## FREE FLAP FAMILY

Free Flap is a hingeless stay flap fitting for all of the most common cabinet heights and flap weight combinations. The Free Flap stay flap fitting is in touch with the latest trends with regard to compactness and design. The fittings impress with their ease of operation. During development, Häfele placed a considerable amount of importance on having a slimline and minimalist design in order to create more space in the cabinet, and having an attractive appearance as a result.

Thanks to the multi-position function, which can be perfectly adjusted using the force adjusting facility, Free Flap holds the flap in every position. The integrated finely-tuned soft closing system provides operating convenience. At stand 4511.

## HARDWARE FOR BI-FOLDING CABINET POCKET DOORS UP TO 25KG PER DOOR

Flush cabinet fronts can be fully opened with Hawa-Folding Concepta 25. Two doors can be folded and slid into furniture cabinets or wall niches at either the side. Systems with one pair of folding doors at both sides can be realized without separating walls using the optional reinforcement profile. Sets with a track length of 2120 mm also make 3-door cabinet fronts possible in combination with Hawa-Concepta

## THE SLEEK NEW TEKFORM SLIMLINE DRAWER

The new Tekform Slimline drawer offers sleek sides and intuitive installation with Easy-fix front panel connectors and consumer preferred integrated 'ConfidentClose' damping. The Slimline drawer doesn't require any galley rails or side extensions for deep drawers, so not only does it look better, but fewer parts means it's also easier to install. With the same drilling as the Tekform drawer and no rebating required, the Slimline drawer is easily interchangeable for added flexibility.

## HETTICH'S NEW GENERATION OF PUSH TO OPEN SILENT TECHNOLOGY

As a pioneer of push to open Silent technology, Hettich has added numerous new features to the second product generation. With push to open Silent, drawers are incredibly easy to open without handles, gently and quietly closing again from just a slight turn of the wrist. Instead of springing back, push to open Silent stores energy and assists the closing cycle as the drawer slowly glides in. With optional synchronisation, the system can be activated from the edges of large drawer. With optional 10 kg runners, light drawers can be closed just as easily as heavy weight drawers up to 80 kg.

## REDISCOVER SIMPLICITY

Requirements for individuality and a wide range of design possibilities are becoming an increasingly important consideration for high-end furniture today. Blum continuously look for ways to broaden the range of possibilities for implementing trends in furniture manufacturing; it is important to Blum that customers are supported during the manufacturing process in the most simple and convenient way. Blum does this by developing technically sophisticated product innovations that make it easier for ideas to become reality.

Rediscover simplicity on the Blum stand at AWISA 2018.

## QUALITY ITALIAN MADE TIMBER COATINGS

Paint Holdings is the Australian distributor for the highest quality Italian timber coatings. Verinlegno, located near Florence, has been manufacturing solvent based timber coatings for furniture and commercial applications for over 50 years. Vernites are in Milan and have for the past 25 years been manufacturing solely water-based timber coatings for both interior and exterior applications. Vernites products have been developed to compete strongly against solvent-based coatings while meeting the safe environmental needs of today.

Both companies produce coatings at the forefront of current technology to provide the best possible durability and aesthetic appearance for timber.

# AWISA 2018

4-7 July 2018

ICC Sydney Exhibition Centre  
Darling Harbour  
Sydney

## SHOW HOURS

Wednesday	4 July 2018	9.00a.m. - 6.00p.m.
Thursday	5 July 2018	9.00a.m. - 6.00p.m.
Friday	6 July 2018	9.00a.m. - 6.00p.m.
Saturday	7 July 2018	9.00a.m. - 4.00p.m.

## ADMISSION AND REGISTRATION

Admission is free. AWISA 2018 is a trade-only exhibition. All visitors are asked to register. Visitors can register at the counters in the foyer prior to admission, but it is preferred that they pre-register. Pre-registrations can only be made through the AWISA website, [www.awisa.com/visitors](http://www.awisa.com/visitors).

## ACCOMMODATION AND AFTER HOURS

There are over 50 hotels within two kilometres of the venue - in the Darling Harbour and Pyrmont area adjacent to ICC Sydney, and in the Sydney CBD. Special rates have been negotiated at a number of these hotels. Visitors are recommended to book early as this will give them a greater choice of room and hotel.

The Lido Group has been appointed to handle visitors' accommodation. To book visit [www.awisa.com/hotels](http://www.awisa.com/hotels). For air travel contact your favourite airline or travel agent.

## AIRPORT SHUTTLE BUSES

A fleet of 48 seat coaches will provide a complimentary shuttle service between the two domestic terminals and AWISA 2018, with the service running every half hour from 8.00am each show day, with the last service leaving the exhibition one hour after the close of the show each day.

On arrival at Sydney airport go to the baggage claim area in either domestic terminal and look for the bus company representative with the AWISA sign, or go to the Qantas group coach bays to the east of the Qantas terminal, T3. Qantas passengers should exit the Qantas terminal ground floor and turn left. Virgin, Jetstar and other T2 passengers

should exit the T2 terminal ground floor, walk along the pedestrian footpath through the ground floor of the car park to the Qantas terminal, then head right to the Qantas group coach bays. Look for the bus with the AWISA sign. International visitors can connect to the AWISA shuttle by taking the airport shuttle to the domestic terminals.

At the venue the passenger drop-off and pick-up point will be at the bus stop in Iron Wharf Place, north end of ICC Sydney Convention centre, near Sofitel Sydney Darling Harbour.

## LUGGAGE ROOM

Luggage can be left during the day at the AWISA luggage room. Items are stored at the owners' risk.

## CAR PARKING AND PUBLIC TRANSPORT

The venue car park is located underneath the exhibition halls, access off Darling Drive. For more details car park and public transport options visit: <https://www.iccsydney.com.au/visit-icc-sydney/getting-to-icc-sydney>

## SAFETY AND CHILDREN

AWISA 2018 is a workplace with woodworking machinery on display and in operation. In the interest of safety, children over 6 months of age and under 15 years of age will not be admitted to the exhibition. AWISA prefers that children are not even brought to the venue. However, a professionally run children's hospitality suite is provided, with activities and entertainment to suit the various age groups being looked after. Space is available on a first-come first-served basis. Bookings are not accepted. By registering to visit, show visitors accept that the final decision about entry of children who appear to be under age will be made by the show managers.

AWISA 2018 IS ORGANISED BY THE AUSTRALIAN WOODWORKING INDUSTRY SUPPLIERS ASSOCIATION LIMITED.
